### INDUSTRIAL DISPUTES, AUSTRALIA, JULY 1983

PHONE INQUIRIES

for more information about these statistics—contact Ms Colleen Fogarty on Canberra (062) 52 6576 or any of our State offices.

other inquiries including copies of publications—contact Information Services on Canberra (062) 52 6627 or in any of our State offices.

MAIL INQUIRIES

write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616 or any of our State offices.

#### MAIN FEATURES

During July 1983 144,300 working days were lost in industrial disputes, compared with 100,500 in the previous month. A total of 58,200 workers were involved in 205 separate disputes.

In the twelve months ended July 1983 dispute resulted in the loss of 1.9 million working days, representing 289 working days lost per thousand employees. This compares with 3.5 million working days lost in the corresponding period ending July 1982, or 671 days lost per thousand employees.

There has been a significant decline in the level of industrial dispute in all States. The extent of this decline is reflected in the days lost per thousand employees. Compared with the corresponding period to July 1982 N.S.W. is down 64%, Vic. 70%, Qld 4%, S.A. 44%, W.A. 38% and Tas. 32%.

#### EXPLANATORY NOTES

##### Introduction

Previous December quarter issues of the publication *Industrial Disputes, Australia* (6322.0) have included tables of working days lost per thousand employees. Similar tables have now been included in this publication.

##### Coverage

2. The statistics relate only to disputes involving stoppages of work of ten man-days or more at the establishments where the stoppages occurred.

3. The figures of working days and wages lost relate to the losses due to industrial disputes (as defined in paragraph 5) and not to aggregate losses for the economy as a whole. Details shown in this publication refer to all disputes in progress during the reference period indicated.

4. The statistics of industrial disputes are compiled mainly from data obtained from employers (both private and government) and trade unions concerning individual disputes and from reports of government authorities. Particulars of some stoppages (for example, those involving a large number of establishments) may have been estimated and the statistics therefore should be regarded as giving only a broad measure of the extent of industrial disputes (as defined).

##### Definitions

5. For these statistics an *industrial dispute* is defined as a withdrawal from work by a group of employees or a refusal by an employer or a number of employers to permit some or all of their employees to work, each withdrawal or refusal being made in order to enforce a demand, to resist a demand, or to express a grievance.

6. *Workers involved* include workers directly and indirectly involved in disputes. Workers indirectly involved are those thrown out of work at the establishments where the stoppages occurred, but who are not themselves parties to the dispute.

7. Differences between monthly and annual totals of workers involved can occur due to temporary cessations of stoppages that resume in subsequent months. Workers re-involved in this type of dispute are included in the monthly totals.

8. *Working days lost* refer to man-days lost by workers directly and indirectly involved in the dispute and figures are generally as reported by parties to the dispute. For some disputes working days lost are estimated on the basis of the number of workers involved and the duration of the dispute.

9. *Estimated loss in wages* represents the amount of wages and salaries lost by workers directly and indirectly involved in the dispute and the amount is generally reported by parties to the dispute.

10. *Working days lost per 1,000 employees* have been compiled from those lost by workers directly and indirectly involved in disputes involving stoppages of work of ten man-days or more in the establishments where the stoppages occurred. Working days lost in agriculture, etc. and in private households employing staff have been excluded.

11. The estimates of employees are obtained from the Labour Force survey.

##### Other ABS publications

12. Users may also wish to refer to the following publications:

*Labour Statistics, Australia, 1980* (6101.0) (\$4.80, \$5.80 including postage)

*Industrial Disputes, Australia* (6322.0) — quarterly and annual  
*The Labour Force, Australia* (6203.0) — monthly (\$1.00, \$1.70 including postage)

13. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

##### Symbols and other usages

- nil or rounded to zero
- r revised

14. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R.J. CAMERON  
Australian Statistician

TABLE 1. INDUSTRIAL DISPUTES : AUSTRALIA
